THE PENDULUM

Jesus Words to Me

JESUS WORDS TO ME...

"When I was a boy, I took turns at swinging pendulums. I was fascinated by the movement and momentum. Not like your modern pendulums of steel, but never the less, operating on the same principle.

The world was created by Me, yet here I was in the world just as much a part of this world's genetics and mysteries as you are.

Momentum is life feeding into new life over and over again.

My fire was the times spent with My heavenly Father. My passion was singing and dancing for Him. He loves that. Much like the joy you take when babies sing and dance without limitations or vulnerabilities affecting them. The joy of my Father was my life. When I was 10, I was more gifted than most and it became evident. My skills and character grew. This won me favour with people - or not. But mostly favour. I knew at 13 that I was destined for a very short time of ministry. And then the cup would come that I would rather not drink.

But like you, I knew that I had already made up my mind to do the Fathers will. He was everything to me even then.

Pulling on the heart strings of my life was my mother and loved ones. Pulling on the heart strings of my life was the fact that one day I would die in your place and win my Fathers family back to Him. I loved Him. I love Him now.

What, you say, was I like in my teens? Full of laughter and fun and seriousness and passion. My earthly guardian Joseph passed away as he was quite elderly. This was quite a shock to me. I grieved for some time and comforted my mother from that day. I became a good provider and my carpentry skill brought great wealth. My long lost older brothers of Joseph's descent before he married my mother, certainly showed up again to take their share of the wealth that the Father was establishing me in.

Already miracles were prevalent in my home. I studied, I practiced, I

worked, I rested as you have done. And then came the time for me to fulfil my purpose here. It was not without great anguish and somber heart that I walked each day closer to the cup of suffering and death. I was your son's age now (30years). I took the whole weight of the penalty for all.

When the time came, there was no denying the way. You will never have to know this suffering."

Jesus, I am yours.

THE PENDULUM -

SABBATH
REVELATION

The Sabbath was made for man, not for God so that we would not work ourselves to death. If we do not stop, rest and recharge every 7th day, we will run ourselves into exhaustion and ill health. dis-ease = disease.

As the momentum of the pendulum eventually runs out, so do our physical bodies. When we rest and fellowship with God we are strengthened, revived and restored. It is as if God takes the ball of the pendulum and restarts the momentum.

Momentum is life feeding into new life over and over again.

We are not slave to the Sabbath, we are dependent upon the Lord of the Sabbath. His strength and resurrection. Even the dictionary refers to the "restoring force" of the released pendulum which acts upon the pendulums mass... and speaks of the equilibrium position. The Lord; our restoring force.
